

ANTRIKSH PANDEY

Full Stack Web Developer

+918130907556 | antriksh199@gmail.com | 320, Bargaon Gonda, Uttar Pradesh, 271002 | [GitHub](#) | [LinkedIn](#)

CAREER SUMMARY

Results-driven Full Stack Software Engineer with 5+ years of experience in designing, developing, and deploying scalable enterprise applications using C#, .NET Core/.NET 8, ASP.NET Core, Python, Angular, RESTful APIs, SQL, and microservices architecture. Proficient in cloud-native development on AWS, containerization with Docker, Kubernetes orchestration, CI/CD pipelines, authentication and authorization (JWT/OAuth2), database optimization, and performance tuning. Experienced in building secure, maintainable, and high-performance applications while collaborating across cross-functional teams to deliver business-critical solutions. Currently expanding expertise in Python, Machine Learning, Natural Language Processing, and Generative AI to develop intelligent, data-driven applications, with a strong commitment to continuous learning, innovation, and delivering measurable business value.

TECHNICAL SKILLS

Programming Languages: C#, Python, SQL, JavaScript, TypeScript

Backend Technologies: .NET 8, ASP.NET Core, Django, RESTful APIs, Microservices, Entity Framework Core, NHibernate

Frontend Technologies: Angular, HTML5, CSS3, Angular Material, RxJS

Databases: SQL Server, Oracle, PostgreSQL, MySQL

Cloud & DevOps: AWS (EKS, ECS, EC2, S3, CloudFront, API Gateway, IAM, CloudWatch, RDS, Lambda), Docker, Kubernetes, Jenkins, GitHub Actions, Terraform, Nginx

Authentication & Security: JWT, OAuth 2.0, Amazon Cognito, Role-Based Access Control (RBAC)

Architecture & Design: Microservices, Clean Architecture, SOLID Principles, Design Patterns, Dependency Injection

Version Control & Tools: Git, GitHub, Visual Studio, VS Code, Postman, Swagger

Monitoring & Observability: Prometheus, Grafana, CloudWatch, Logging & Performance Monitoring

AI & Machine Learning: Python, NumPy, Pandas, Matplotlib, Scikit-learn, Machine Learning Fundamentals, NLP, Generative AI (Learning)

Methodologies: Agile, Scrum, Test-Driven Development (TDD), CI/CD, SDLC

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Technical Documentation, Production Troubleshooting.

PROFESSIONAL EXPERIENCE

SYSTEMS ENGINEER | Tata Consultancy Services | Gurugram, Haryana

Dec 2021 – present

- Developed, enhanced, and maintained enterprise web applications for the Life Sciences domain using Angular, .NET, Python (Django), and Oracle Database, ensuring high performance and reliability.
- Designed, developed, and integrated RESTful APIs within a Microservices Architecture, leveraging AWS API Gateway, Load Balancer, and Amazon Cognito (OAuth 2.0) for secure and scalable service communication.
- Built and optimized CI/CD pipelines using GitHub Actions, Azure Pipelines, Docker, and Kubernetes (Amazon EKS), enabling automated build, test, and deployment processes.
- Integrated applications with AWS S3 and AWS Lambda to implement secure file upload, storage, and serverless processing workflows.
- Automated user management and repetitive administrative tasks using Selenium WebDriver, reducing manual effort by 40% and improving operational efficiency.
- Collaborated directly with customers to gather requirements, resolve production issues, and deliver enhancements while participating in Agile/Scrum ceremonies.
- Managed incident resolution, change requests, and production support activities using ServiceNow ITSM, ensuring timely delivery and adherence to SLAs.
- **Technologies & Skills:** Angular, C#, .NET, ASP.NET Core, Python (Django), Oracle Database, REST APIs, Microservices, AWS (EKS, S3, Lambda, API Gateway, Cognito), Docker, Kubernetes, GitHub Actions, Azure Pipelines, Selenium WebDriver, ServiceNow, DevOps, Agile.

- Completed structured training in customer communication, stakeholder management, and professional business interactions, serving as a customer point of contact.
- Participated in customer meetings to understand business requirements, document action items, and strengthen communication and relationship management skills.
- Gained hands-on experience with Oracle Database, Python, and Microsoft Office Suite for data analysis, reporting, and day-to-day operational tasks.
- Learned SQL fundamentals, database querying, data validation, and basic troubleshooting using Oracle Database.
- Assisted in documenting business processes, preparing technical documentation, and supporting cross-functional teams in project activities.
- Worked in an Agile environment, collaborating with team members to understand the software development lifecycle (SDLC) and project delivery practices.
- Developed foundational knowledge of problem-solving, analytical thinking, requirement analysis, customer support, and professional communication.
- **Technologies & Skills:** Python, Oracle Database, SQL, Microsoft Office, SDLC, Agile, Business Communication, Stakeholder Management, Technical Documentation, Data Analysis, Problem Solving, Team Collaboration.

PROJECTS

Multi-Cloud Kubernetes Microservices Platform

Apr 2026 – Jul 2026

[Link](#)

Engineered and deployed a cloud-native, self-managed Kubernetes (K3s) platform hosting Angular/.NET full-stack and microservices applications across OCI and AWS. Implemented secure cross-cloud authentication with AWS Cognito, Kubernetes Ingress, persistent PostgreSQL storage, and modern Angular architecture using Standalone Components and Signals. Skilled in Kubernetes, Docker, .NET Core, Angular, PostgreSQL, OCI, AWS, and cloud infrastructure.

Skills: Kubernetes (K3s), Docker, Oracle Cloud Infrastructure (OCI), AWS Cognito, .NET Core, Angular, TypeScript, C#, PostgreSQL, Kubernetes Ingress, JWT Authentication, Microservices Architecture, REST APIs, Cloud Infrastructure, DNS, SSL/TLS, Persistent Volumes (PV/PVC), Linux

Personal Portfolio Website

Apr 2026 – Jul 2026

[GitHub](#) | [Demo](#)

Developed a responsive personal portfolio website using Angular and Bootstrap to showcase projects, technical skills, and professional experience. Implemented a modern, performance-optimized UI with responsive design and interactive features, ensuring seamless user experience across desktop and mobile devices.

Skills: Angular, TypeScript, Bootstrap, HTML5, CSS3, Responsive Web Design, UI/UX Development, Performance Optimization, Single Page Applications (SPA), Git, DNS.

Monetary

Jul 2025 – Sep 2025

[GitHub](#) | [Demo](#)

Developed a cloud-native personal finance management application with features including expense and income tracking, budget planning, transaction management, financial dashboards, reporting and analytics, secure user authentication and responsive web experience, leveraging microservices architecture and REST APIs.

Skills: .NET Core, C#, Angular, TypeScript, Kubernetes (K3s), Docker, AWS RDS, AWS ECS, AWS Cognito, JWT Authentication, JWKS, REST APIs, Microservices Architecture, Kubernetes Ingress, HTML5, CSS3, Bootstrap, Git, Linux, CI/CD.

Microblog

Jul 2023 – Sep 2023

[GitHub](#)

Developed a responsive social blogging web application using Django that enables users to create, publish, and manage blog posts, interact through reactions, and engage with other users via a secure, user-friendly platform.

Skills: Django, Python, HTML5, CSS3, Bootstrap, JavaScript, SQLite, Django ORM, User Authentication, CRUD Operations, Git.

CERTIFICATIONS

- **AWS Certified Developer – Associate**
Amazon Web Services (AWS), Sep 2025 – Sep 2028
- **Python and Django Full Stack Web Developer Bootcamp**
Udemy, Oct 2021
- **SQL(Advanced)**
Hackerrank, May 2022

EDUCATION

B.TECH Electronics & Communication Engineering JSS Academy of Technical Education Noida 81.5%	2016 – 2020
SENIOR SECONDARY (CLASS XII) FATIMA SENIOR SECONDARY SCHOOL GONDA 92.2%	2014 – 2015
HIGHER SECONDARY (CLASS X) ST. XAVIER'S HIGHER SECONDARY SCHOOL GONDA 10 CGPA	2013 – 2014

ACHIEVEMENTS

- Received TCS Digital Cadre through TCS Digital Capability Assessment.
- Received Start of the Team and Technical Excellence Awards for contribution and performance.
